

AUTOCROSS FUN # 2

SUNDAY—JUNE 9, 2024 7:30 AM to 5:00PM

WINTRUST FIELD

1999 S Springinguth Rd, Schaumburg, IL 60193

The North Shore Corvette Club will be doing autocross events with the Windy City Miata Club at Wintrust Field's parking lot in Schaumburg. We will follow their schedule in our own group. We will offer several options for participation. First, you can come on out to observe and see what it is all about. You can just watch, work a corner or ride along in a members car. It's suggested that you do all three if you are interested in auto crossing in the future. You can pick an option that you are comfortable with and just do that. They are always looking for volunteers for helping run the event.

Second, if you have auto crossed before, you can sign up and autocross. There will be people to ride along with you if you are a little rusty on the process.

To come on out and see what it is all about, there is no need to do anything, just come and go as you please. You must sign a waiver to be there and that is it.

To auto cross you must pre register, two weeks in advance on-line at: motor-sportsreg.com. Participation is on a first come basis, with a limited amount of spaces, so register when registration opens. Please pre-register with motor-sportreg in advance so you can make it easier in the future. We will provide links to make it as simple as possible.

This is a parking lot event with a lot of cones and it is confusing at times. It is all for fun and a learning experience that will only help you whenever you drive. We will talk about auto crossing and do our best to answer any questions you may have and try to eliminate any confusion in advance. But don't worry, no matter how prepped you are, there will be issues and that's what we're trying to correct and have fun doing it. And, don't worry about embarrassment, there will be plenty to go around. We will also inform you of what would be required for prep of your car. It's really just everyday things that your car should be maintained with to ensure safe driving.

This is a first, so lets make the best of it.
